Professional Experience

ADs Rater

Telus international

2024 – Present

- Evaluated the relevance and accuracy of Google search results by analyzing how well they matched user queries and intent.
- Assessed the placement and timing of YouTube ad breaks to determine whether ads appeared in optimal, non-disruptive moments within video content.
- Rated the overall quality and usefulness of ads, search results, and content recommendations across multiple platforms, including web and video.
- Followed detailed guidelines to provide consistent, high-quality ratings, helping improve search engine algorithms and ad delivery systems.
- Contributed to the development of AI and ad placement systems by providing nuanced human judgments on ad relevance, user experience, and content context.
- Demonstrated strong attention to detail, time management, and data integrity in a flexible remote work environment.

AI Model Trainer

Outlier

03/2025 – 06/2025

- Collaborated in training large language models (LLMs) by evaluating AI-generated responses to user prompts across a wide range of topics.
- Assessed and rated the quality, accuracy, relevance, and helpfulness of AI responses to enhance the model's understanding and overall user experience.
- Analyzed and reviewed prompts and completions to identify weaknesses in model output, helping guide iterative improvements.
- Provided detailed written feedback and rationale for ratings, contributing to continuous model refinement and dataset quality assurance.
- Maintained high standards of annotation consistency, confidentiality, and task completion within strict deadlines in a fast-paced, remote work environment.
